## Comments

I have thoroughly had the hardest time with your pasat software. It has taken me well over a week to get it to work and although I have to be to work in a few hours I finally got this thing done. Your telephone support people had no idea of how to help me and I wound up reinstalling my entire operating system etc. Now, this evening it took me about 12 hours to work my way through epave. It looks like whoever wrote it can't speak english very well and they don't know how to spell... for example there was an error with my "submition" (not "submission" mind you) and then when I thought I had it all together, there is this problem with my titles not being the same or something. I give up. I have to have this thing in today or else, so if it's wrong please let me know what the problem is and I'll try to fix it but I don't see any mismatched titles anywhere, and I think this whole sytem needs to be re-done or at least fixed. After looking it over again, YOUR SOFTWARE changed the font in the patent specification and then put out an error message saying it was wrong and would cost me more money and delays. Could you all PLEASE do a quality check before you release any more garbage like this? It makes me sick to

know that there are hundreds of people getting paid millions of do and then when you call them on the phone you get no help. This s Darren Brumfield, private inventor ps now I can't log onto your no certificate now.	submission process sucks. Thank you. Robert
